

I just need
the main ideas

SUMMARY OF RECOMMENDATIONS:

- ⇒ Acknowledge that along with other considerations, the most feasible plan in terms of finances, is to renew the ponds as outlined in **OPTION B POND RENEWAL**.
- ⇒ Establish a **DEDICATED POND IMPROVEMENT BUDGET** and establish an **accounting system apart from the general reserves**.
- ⇒ WFCFA should **transfer** a minimum of **\$40,000** from the WFCFA reserves to the Dedicated Pond Improvement Budget.
- ⇒ Until more specific financial details are available, assume that Option B Pond Renewal provides the foundation for **BUDGET PLANNING**.
- ⇒ Seek a mutually agreeable **partnership** with **MOSS CREEK AND MOSS CREEK VILLAGE** that eases the conflict regarding on-going maintenance and financial contributions. *(It would be advisable for WFCFA to agree to assume more of the bank maintenance in return for financial contributions from MC and MCV.)*
- ⇒ Provide **information** through emails, website, small group meetings and well-designed print communications.
